CAPTIVATING APPEAL

An impressive home exterior, Fair Oaks presents a higher level of craftsmanship and beauty. This versatile collection offers a full array of exquisite colours, an authentic hardwood texture and classic profile designs in a premium-grade vinyl construction.

Beautiful, Practical and Strong

Built with lasting beauty in mind, Fair Oaks' superior strength and easy-care features make it an ideal selection for your home. Durable and dent-resistant, each panel is solid vinyl colour through and through, so it won't chip, flake and blister like painted surfaces. And unlike wood, it won't rot and warp due to moisture. Your home will maintain its fresh-looking finish despite exposure to harsh weather and other destructive elements.

Easy Care, Easy Clean

Fair Oaks will dramatically reduce your exterior maintenance because it never needs to be painted. You can forget about dangerous ladders or time-consuming upkeep. An occasional rinse with a garden hose will remove most airborne dust and dirt to help keep your home looking like new.

Investing in Your Future

When you think about it, your home may be your single most important investment, so it's wise to safeguard its appearance and value. Fair Oaks vinyl siding not only will create an enjoyable, worry-free exterior, but will heighten your home's curb appeal as well. And in today's resale market, a beautiful, low-maintenance finish can greatly enhance the value of your home.

Vinyl Siding – The No. 1 Choice

The secret is out! Vinyl siding is the No. 1 choice of exterior cladding across Canada and the United States. Creating the distinctive beauty of a freshly painted wood finish, vinyl siding is loved for its classic appearance, exceptional durability, easy upkeep and great value. It's also friendlier to the environment than many other siding products. As a sustainable material with a long lifespan, vinyl siding helps conserve wood often used in home construction. And because vinyl siding never needs to be painted, it eliminates the use of paint, stain, caulk and other maintenance-related products that can harm the earth.

Visit www.vinylsiding.org/ABOUTSIDING/alternatives/index.asp to find out why vinyl siding is a great choice today and for future generations to come.

Single 8"

Single 8" is available in Snow White and Maize only.

Designer Colours

Siding with Perfection

Perfection? It's never too much to ask. Our Colour Clear Through® system makes it easy to find the perfect colour match for your exterior design. This exclusive selection of customer-preferred colours ensures that all Gentek products – siding, soffit, fascia, trim and rainware – will beautifully match throughout our vinyl, aluminum and steel product lines.

Featuring richer, darker colours

fortified with ChromaTrue® fade-defying technology,
Fair Oaks vinyl siding carries a lifetime limited warranty against fading.

See printed warranty for complete details. **ChromaTrue®**

THE SUPERB construction of Fair Oaks sets it apart. Beginning with a heavy-duty .044" panel thickness, this powerfully built siding boasts a rolled nail hem and deep 5/8" butt height for superior strength and rigidity. An innovative Anchor-Tite™ locking system firmly secures each panel in place for outstanding structural integrity and wind resistance. Together, these design enhancements deliver exceptionally straight, smooth walls that are protective and strong.

High-Performance Innovations

With simplicity and ease, Fair Oaks beautifully captures the elegant detail and timeless appeal of a freshly painted wood finish. But take a closer look and you'll see substantial structural upgrades that help Fair Oaks achieve style and strength beyond ordinary vinyl siding.

Rolled Nail Hem

Fair Oaks is fortified with a rolled nail hem for extra-strong wall attachment. In laboratory tests simulating hurricane-force wind conditions, Fair Oaks withstood windloads up to 305 km/h (190 mph).*

Anchor-Tite Panel Locking System

The Anchor-Tite locking system works double time – reinforcing the rigidity of the siding and keeping panels secured firmly together for crisp, clean wall lines and a markedly superior installation.

Durable .044" Panel Thickness

Handsomely crafted with a rugged .044" panel thickness, Fair Oaks promises enduring protection and beauty for your home. The low-gloss finish and subtle hardwood texture will stand up strong to harsh weather and keep its luxurious appearance year after year with very little upkeep!

Extra-Deep 5/8" Butt Height

You may not realize it, but the siding's butt height creates shadow lines that add dimension and style to a home. The deeper the butt height, the more dramatic the shadow lines appear. Fair Oaks' generously proportioned 5/8" butt height will convey the perfect measure of beauty and refinement, while also fortifying the integrity and strength of the siding.

TRIM ESSENTIALS[®] BY GENTEK

TrimEssentials by Gentek[®]

decorative accents and trim – along with shakes and scallops, and a host of soffit and siding products – let you take a whole new approach to traditional design. So go ahead and get creative, get inspired and have fun with the fundamentals!

OUR COMMITMENT TO QUALITY
